

How Do I...

Connect to a mobile hotspot?

To turn on the mobile hotspot:

1	Plug in the mobile hotspot, then press and hold the Power button on the side of the device until the screen reads “Welcome”.
2	Wait for the Network, Wi-Fi bars, and battery icons to appear. When you see these on the screen, the Wi-Fi is turned on.
3	Choose the device that you want to connect to the Wi-Fi. Find the device’s settings (usually indicated with a gear icon) and select the Wi-Fi icon.
4	The Wi-Fi name will be KCLibrary_TechAccess , followed by a number. The number of each Wi-Fi hotspot is different and is found on the inside lid and outside of the box. Wi-Fi hotspots are numbered 1-10. Select the Wi-Fi network that matches the number on your device.
5	A new window will appear that asks for the network security code or password. The password for the mobile hotspot is librarywifi .

To turn off the mobile hotspot:

7	Navigate to your device’s Settings screen and select the Wi-Fi icon. By clicking on the Wi-Fi icon, the device will disconnect from the signal.
8	Once all devices are disconnected, press and hold the Power button on the side. It will display a “Goodbye” message on the screen.
9	After the “Goodbye” message appears, the LED lights on the mobile hotspot will turn off. Unplug the device and put it back in the box until you’re ready to use it again!
